

Join a
Natural Step
Discussion Circle
this Fall

The Natural Step (TNS) is a **framework for sustainable practices** used by countries, communities and businesses in developing policies and practices towards sustainability. The framework creates a unifying view of the activities necessary to achieve sustainability. It converts theory to practice using logical, practical criteria for consistent decision making.

Well over a dozen communities in Wisconsin have adopted The Natural Step as their model including the cities of Ashland, Bayfield, Madison, Manitowoc, Marshfield, Johnsons Creek, Neenah, and Washburn; as well as La Crosse and Douglas Counties.

In this **free, 4-week session**, participants will apply The Natural Step framework in **discussions about local and regional issues of sustainability** including water, food, waste, transportation, land use, renewable energy and working with government to effect change. Participants will use the book *The Natural Step for Communities*.

Thursday nights
7:00-8:30
Sep 23, 30, Oct 7, 14
Martha Merrell's Book Store
231 W. Main Street, Waukesha
